

Setting up Application Environment

Create an account in Sendgrid

Team ID	PNT2022TMID28032
Project Title	Project – Skill/Job Recommender Application

The image shows two screenshots of the SendGrid web interface. The top screenshot is the login page at app.sendgrid.com/login. It features the Twilio SendGrid logo, a username field with the email `btechmano@gmail.com`, a password field, a "Forgot your password?" link, and a blue "Log In" button. Below the button, it says "Log in with single sign-on (SSO) instead". The bottom screenshot is the Two-Factor Authentication (2FA) setup page at app.sendgrid.com/2fa_email_checkpoint. It displays the Twilio SendGrid logo and the heading "Let's secure your account with Two-Factor Authentication (2FA)". The page lists three steps: 1. Check the inbox for an email from SendGrid. 2. Use the link in the email to set up 2FA. 3. Follow the steps to complete setup. It also states that 2FA protects the account by requiring a password and an authentication code. A "Log Out" button is at the bottom right.

Thus we have created account in sendgrid
